14th ECIM 2015 Congress Organizing Committee announces that the deadline for Abstract submission has been extended till 01 July 2015

Dear Colleagues!

President of European Federation of Internal Medicine (EFIM)
Frank Bosch

It's a great pleasure and honor for us to invite all professionals and young internists to the 14-th European Congress of Internal Medicine (ECIM). It will take place in Moscow, Russia, October 14-16, 2015. ECIM-2015 is a scientific Congress during which a lot of new research is being presented and discussed among scientists and practitioners from all over Europe and many other countries of the World. We are delighted to welcome you to Moscow, one of the most beautiful cities in the world. The Russian Scientific Medical Society of Internal Medicine (RSMSIM) was established more than 100 years ago to bring together leading national experts in the field of internal medicine. Since its foundation, the Society of Internal Medicine considers that its main purpose is the continuous professional education of medical practitioners in our country.

The European Federation of Internal Medicine (EFIM) was created in 1996 and represents all the internists (around 30.000) in Europe. In this congress a wide range of topics relevant to Internists will be presented and discussed. The learning formats will be diverse and will include clinical symposia, updates in various specialties of medicine, keynote lectures, oral presentations and poster sessions. We are planning an exciting Congress that is not to be missed and hope that you will make definitive plans to participate. Your contribution is important for us. We are looking forward to meet you in Moscow.

Finally, this will be a great opportunity to meet general internists from all over Europe, and share the joys and preoccupations of our fantastic discipline, which is still at the very core of clinical medicine.
